Summary

Computer Engineering student at UNLaM with hands-on practice in IT support fundamentals, SQL & BI (Power BI) and web development (HTML/CSS/JavaScript, Astro). Strong end-user communication, structured troubleshooting, and documentation mindset. Looking for an entry-level role or internship to grow in real projects.

Technical Skills

IT Support	Windows 10/11 (basic configuration), software installation, drivers & peripherals, ticket follow-up, user assistance
Networking	LAN/Wi-Fi concepts, IP/DHCP/DNS basics, connectivity troubleshooting; basic awareness of VPN/TCP/IP
Data/BI	Power BI, Power Query, DAX basics, KPI dashboards, star schema (basic)
SQL	Joins, subqueries, CTEs, views, basic relational modeling; export/reporting
Web	HTML5, CSS3, JavaScript (ES6+), Astro, responsive UI, REST API consumption
Tools	Git/GitHub, Excel/Google Sheets, Vercel/Netlify deployment

Projects

Sales Dashboard (Power BI)
Star schema + KPIs (sales, avg. ticket, YoY%), filters by date/region; published to Service.

SQL Reporting Pack
Reusable queries with joins/CTEs/views for monthly KPIs and Top-N rankings; export to CSV.

Mini SPA (Astro + JavaScript)
API consumption with pagination, loading/error handling and responsive UI; deployed online.

Education

Universidad Nacional de La Matanza (UNLaM) — Computer Engineering (in progress)
2025 – Present

Certifications

• Web Development — Coderhouse — Mar 2024
• JavaScript — Coderhouse — May 2024
• SQL — Coderhouse — Dec 2024
• Introduction to Power BI — Santander Open Academy — Apr 2025

Languages

Spanish: Native. English: Intermediate (conversational).
